

Bella Sez...

You, too, can combat global warming when you have your car serviced. I'm donating a year's worth of carbon offsets for your vehicle, purchased locally from The Climate Trust, with our Annual Vehicle Efficiency Service and Inspection or any 30, 60, or 90K mile service. The Climate Trust uses carbon offset donations to fund projects that lead to verifiable reductions of greenhouse gas levels in the atmosphere. Just call my shop and mention this ad when scheduling an appointment.
